

## Product Information

# Non-Detergent Engine Oil

*General Purpose Automotive and Industrial Lubricants  
Economical Engine Oils for Older Vehicles & Small Motorcycles  
Designed for Vehicles Where Consumption is High*

---

### DESCRIPTION

**Xtreme™ Non-Detergent Engine Oils** are manufactured from hydro-treated, virgin base oils selected for their clarity, thermal stability and resistance to oxidation. These oils are fortified with anti-foam additives and intended for use in older vehicles where the need for economical lubricants is more important than long term anti-wear protection. These oils will readily mix with all modern detergent motor oils.

**Xtreme™ Non-Detergent Engine Oils** are made in SAE 10, 20 and 30 Grade to satisfy engine requirements in a wide variety of climates.

Typical applications are small compressors, drip oiling systems, splash lubrication systems, wet sump oiling systems and general farm and industrial lubrication.

---

### APPLICATION

- Older vehicles where the need for modern detergent additives is reduced
- Mild and non-detergent requirements in farm and stationary engines
- Small air compressors where non-detergent oils are recommended
- Heat transfer applications calling for straight mineral oils
- General purpose lubrication in drip systems or manual oilers

---

### BENEFITS

- Variety of grades for various climates
- Hydro-dynamic lubricating film on engine parts
- Heat away from combustion zone
- Mixes safely with all OEM fluids
- Economical lubrication for older vehicles & small motorcycles
