

Section 1. Identification

Product Identifier

Product Name	49N Arctic Synthetic HDMO
Common Name	Motor Oil, 0W30 / 0W40
Product Code(s)	1403 / 1400

Recommended or Restricted Uses

Recommended Use	Lubricant
Restricted Use	Not Applicable

Canadian Supplier

Supplier	49 North Lubricants 6611 45 th Street, Leduc, Alberta T9E 7E3 Canada Tel: 1-800-463-0354 Fax: 1-877-917-4949
----------	---

Emergency Telephone Number

Emergency Telephone	CHEMTREC: 1-800-424-9300
---------------------	--------------------------

Section 2. Hazard Identification

Hazard Classification

WHMIS Regulatory Status	Hazardous Product
Physical Hazards	Not Classified
Health Hazards	Acute Toxicity
Environmental Hazards	Not Classified

Label Elements

Symbol

Signal Word

Danger

Hazard Statements

May be fatal if swallowed and enters airways

Precautionary Statements

Read label before use
If swallowed contact poison center immediately
Do NOT induce vomiting

Other Hazards

Not Applicable

Section 3. Composition / Information on Ingredients

Hazardous Product: Mixture

Chemical Name	1-Decene
Common Name	
CAS Registry #	68037-01-4
Concentration	30 - 60%

Section 4. First Aid Measures

Route of Exposure

Inhalation:	Move affected person to fresh air and keep warm and at rest. Loosen tight clothing such as collar, tie or belt. If breathing becomes difficult, properly trained personnel can assist affected person by administering oxygen. Place unconscious person on their side in the recovery position and ensure breathing continues.
Skin Contact:	Rinse affected area with soap and water. Remove contaminated clothing.
Eye Contact:	Rinse immediately with plenty of water. Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 10 minutes. Seek medical attention.
Ingestion:	Do not induce vomiting. Seek medical attention immediately.

Most Important Systems and Effects

Inhalation:	May Cause: Coughing,
Skin Contact:	May Cause: Temporary Skin Irritation
Eye Contact:	May Cause: Irritation or Redness in Eyes
Ingestion:	May be fatal if swallowed and enters airways

Immediate Medical Attention and Special Treatment

Note for the Doctor	Treat symptomatically. Contact poison treatment specialist if large quantities have been ingested.
---------------------	--

Section 5. Fire-Fighting Measures

Extinguishing Media

Suitable Extinguishing Media	Extinguish with dry chemical, foam, carbon dioxide powder or water fog.
Unsuitable Extinguishing Media	Do not use water jet as an extinguisher, this can spread the fire.

Specific Hazards Arising from the Hazardous Product

Specific hazards	Containers can burst violently or explode when heated. Contains Hydrocarbons. The product is immiscible with water and will spread on the water surface.
Hazardous combustion products	Toxic fumes. Hydrocarbons. Carbon Monoxide (CO). Carbon Dioxide (CO ₂).

Advice for Firefighters

Protective actions during firefighting	Avoid breathing gases or vapours. Evacuate the area. Ventilate closed spaces before entering them. Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk.
Special protective equipment for firefighters	Not Applicable.

Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

Personal precautions	Keep unnecessary and unprotected personnel away from spillage. Wear protective clothing as described in Section 8. Follow safe handling as described in Section 7. Wash thoroughly after dealing with a spill. Ensure procedures and training for emergency decontamination and disposal are in place. Do not touch or walk into spilled material.
----------------------	--

Methods and Material for Containment and Cleaning Up

Methods for cleaning up	Absorb spillage with non-combustible, absorbent material. For small spillages: wipe up with an absorbent cloth. Avoid discharge into drains or watercourses or onto the ground. For large spillages: Contain the spilled material, absorb with non-combustible absorbent material, removed and dispose of contaminated
-------------------------	--

material with a licensed waste disposal site. If environmental pollution occurs (sewers, waterways, soil or air) inform the relevant authorities. Large spills may require pumping of water or excavation of soil to clean up.

Methods for containment Use berms, skimmers, and absorbent to contain the spillage where appropriate.

Section 7. Handling and Storage

Precautions for Safe Handling

Usage precautions Read and follow manufacturer's recommendations. Do not breathe vapour or mist. Do not ingest. Wear PPE as described in Section 8. Eating, drinking, and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash before eating, drinking or smoking. Handle all packages and containers carefully. Keep all containers tightly sealed when not in use.

Conditions for Safe Storage, Including any Incompatibilities

Storage Precautions Store away from incompatible materials listed in Section 10. Store in accordance with local regulations. Keep containers in a cool, well ventilated location. Do not store in direct sunlight. Empty containers may contain product residue and should be stored accordingly.

Storage Class Not Applicable

Section 8. Exposure Controls / Personal Protection

Control Parameters

Occupational Exposure Limits Not Applicable

Appropriate Engineering Controls

Engineering controls Provide adequate ventilation. Use engineered ventilation to keep the airborne concentration below the recommended exposure limits.

Individual Protection Measures

General All personal protective equipment (PPE) should comply with Canada OH&S Regulations (SOR/86-304)

Eye/Face protection Recommended: Safety glasses. Where splash hazards exist use a face shield as well.

Hand protection Recommended: Neoprene or heavy nitrile gloves.

Body protection Recommended: Long sleeved coveralls.

Respiratory protection Vapourization is not expected at ambient temperatures. If engineered ventilation is inadequate, use a NIOSH-certified respirator with a dual cartridge for organic vapor and P95 particulates.

Section 9. Physical and Chemical Properties

Physical Properties

Physical State Liquid

Colour Amber

Odour Mild Petroleum

Odour threshold Not Available

Chemical Properties

pH Not Available

Melting point / freezing point Not Available

Flash point > 200°C (closed cup)

Evaporation rate < 1

Flammability (solid; gas) Not Available

Lower Explosive Limit Not Available

Upper Explosive Limit Not Available

Vapour pressure < 1 mm Hg @ 25°C

Vapour density	Not Available
Relative density	0.84 – 0.87
Solubility	Insoluble in water
Partition coefficient: n-octanol/water	Not Available
Decomposition temperature	Not Available
Viscosity	Not Available

Section 10. Stability and Reactivity

Reactivity	Not Available
Stability	Stable
Possibility of hazardous reactions	Not Applicable
Conditions to avoid	Not Applicable
Incompatible Materials	Strong Oxidizers
Hazardous decomposition products	Thermal – CO ₂ , CO, trace oxides of sulfur, nitrogen, phosphorus, and zinc.

Section 11. Toxicological Information

Routes of Exposure	Ingestion, Inhalation, Skin/Eye Contact
<u>Symptoms</u>	
Physical	Skin/Eye contact may cause irritation or redness
Chemical	No Available Data
Toxicological	No Available Data

Exposure Effects

Delayed Effects	No Available Data
Chronic Effects	No Available Data

Acute Toxicity Estimates (ATE)

ATE oral (mg/kg)	No Available Data
ATE dermal (mg/kg)	No Available Data
ATE inhalation (mg/L)	No Available Data

Section 12. Ecological Information

No Available Data.

Section 13. Disposal Considerations

No Available Data. Follow Local Regulations.

Section 14. Transport Information

Not Applicable.

Section 15. Regulatory Information

Not Applicable.

Section 16. Other Information

SDS Revision Date: 07-04-2018

SDS Number(s) 1400 / 1403
